

South Korea is one of the major Asian economies exporting high quality products to Hong Kong. Amidst the current global lockdown and economic slowdown, to help local distributors and vendors connect with selected exporters in South Korea, the Chamber has joined hands with the Korea Suwon Government (www.Trade.Go.Kr) and Suwon Sustainable City Foundation to organize an online business matching event on 3 February 2021. Altogether there will be 5 Korean exporters meeting Hong Kong companies online on a 1-to-1 basis to explore business opportunities.

The Korean exporters are looking for:

- 1) Distributors, importers and vendors dealing with
 - mobile phone peripherals, car accessory items, multi- functional wireless mobile phone cradles for business and non-business uses
 - cosmetic products, healthcare products and ladies' goods
 - sterilizers and sanitizers
 - health care and medical devices
 - musical instruments and accessories
- 2) OEM,ODM companies for cosmetic and personal care products, like lip stick, lip oil, bubble foam cleanser, shampoo, conditioner, shower gel

This event is free of charge. Due to limited meeting slots, distributors and vendors will go through a selection process. Each selected company will be participating in a 1-to-1 pre-arranged online meeting with a Korean exporter at the Chamber. An interpreter will be standby providing assistance during the 30-40 minutes meeting. Product samples from the exporters will also be displayed and for sale on the spot during the meeting. Export prices of these products will be shown in the meeting.

Notes:

- Application deadline will be 22 January.
- Company representatives will be invited to join the online meeting at the Chamber at a specific time assigned by the organizer.
- Laptop computers and headsets will be provided at the venue free of charge.
- All interpreters are based in Hong Kong and can speak fluent English, Cantonese and Korean.
- Distributors, importers and vendors need to pay cash to buy the sample products, and the sample cost will be reimbursed if you place an order.
